DEMAND SIDE MANAGEMENT PROGRAMS AND BUDGETS FOR 2013-2014**

**I.
INTRODUCTION**

Southern California Edison Company (SCE) files this Application seeking approval of its 2013 – 2014 Energy Efficiency (EE) and Demand Response Integrated Demand Side Management (DR IDSM) programs and budgets. SCE’s proposals are submitted pursuant to and in accordance with the California Public Utilities Commission’s (Commission) directives set forth in the Decision Providing Guidance on 2013-2014 Energy Efficiency Portfolios and 2012 Marketing, Education, and Outreach, Decision (D.)12-05-015 (the Guidance Decision), providing guidance on the content and format of the 2013-2014 EE applications, and D.12-04-045, directing SCE to include its 2013-2014 DR IDSM program plans and funding requests in the 2013-2014 EE program application.

The Guidance Decision provides detailed guidance regarding the investor owned utilities’ (IOUs) portfolios for 2013-2014 (the Mandated Program Plan). In addition, the Guidance Decision provides the IOUs with the option of filing an alternative program plan (SCE’s Preferred Program Plan) which is compliant with all Commission decisions, rulings and directives, but is not limited by the detailed direction provided in the Guidance Decision. SCE provides details regarding both the SCE

Preferred and Mandated Program Plans in Exhibit SCE-1, *Testimony of Southern California Edison Company in Support of its Application for Approval of its Energy Efficiency and Demand Response Integrated Demand Side Management Programs and Budgets for 2013-2014*.

SCE's vision for both the Mandated and Preferred Program Plans is centered on an unprecedented level of IDSM, designed to transform the way customers understand, use, and manage their energy usage. This integration will enable our customers to realize the benefits of Edison SmartConnect®, EE, self-generation, and other DSM offerings, while maintaining the reliability of the grid through DR. To make this vision a reality, SCE will pursue an integrated approach to its portfolio of offerings and customer engagement.

First, SCE will offer a robust IDSM portfolio including EE, DR, low income EE, Edison SmartConnect®, self-generation, permanent load shifting, and other solutions, and will also facilitate non-SCE offerings that are beneficial to our customers. Together these offerings will holistically address customer needs including energy management and cost reduction, reliability, and green goals. Rather than offering individual, standalone programs to customers, SCE will begin to increasingly focus on understanding customers and their needs, and responding to those needs through simple engagement, education, and facilitation of integrated solutions. SCE will also build in flexibility, to ensure offerings can respond to customers' changing needs and wants over time.

Second, SCE will focus on technology integration by helping customers maximize utility and other customer-owned technologies to provide useful information at the right time, and in the right way to help guide customers in making better energy management decisions. IDSM opportunities will be identified through web-based technologies and systems that provide integrated energy information, energy audits, and other decision making tools (e.g., leveraging Edison SmartConnect® when appropriate). These and other practical resources will be employed to provide customers a simple way to obtain, understand, and manage their energy usage.

Third, SCE will evolve our customer engagement and marketing to make it easier for customers to take action across the portfolio through IDSM. As part of the overall shift to a relationship marketing strategy, offer management tools such as behavior-based trigger marketing, residential customer lifestyle

packages and business segment marketing will support the shift from multiple, “episodic” program-centric marketing campaigns to bundled and integrated benefit-based customer segment marketing. SCE will deliver relevant, customer-specific, integrated solutions through various channels including targeted marketing campaigns (that include customer segment-focused plans), customer account representatives, third parties, partnership programs, retailers, trade professionals, and other strategic alliances. Additionally, SCE will coordinate with and expand upon the statewide Marketing Education and Outreach Program activities to provide targeted messaging that will be foundational for customer uptake of integrated programs through education and behavior change.

II.

SCE’S EE PREFERRED PROGRAM PLAN AND DR IDSM PROGRAMS ARE REASONABLE AND SHOULD BE APPROVED

A. Summary Of SCE’s Preferred Program Plan

The SCE Preferred Program Plan actively pursues cost-effective EE as a reliable, robust, and least-cost resource, with an increased focus on deeper, more comprehensive retrofits and simpler, more streamlined programs. The SCE Preferred Program Plan also emphasizes a measured approach to an infusion of private capital into the EE arena, with the goal of decreasing ratepayer funding for EE. This approach is expected to enable SCE to leverage new sources of capital to overcome financial barriers to EE participation for residential and business customers. SCE also continues to develop and expand local government partnerships in its Preferred Program Plan, in order to continue to encourage customers to embrace Energy Efficiency on a local level, while increasingly targeting deeper retrofits in municipal facilities and local communities.

Some key aspects of SCE’s Preferred Program Plan for 2013-2014 include:

- **Financing Program:** Attract private capital into EE markets to reduce reliance on ratepayer-funded financing and maintain an appropriate utility role in facilitating lending transactions between third party lenders and willing consumers. In 2013-2014, SCE proposes to continue On-Bill Financing (OBF) on a limited basis, while working collaboratively with interested parties and the other IOUs to explore other third party

financing options including possible on-bill repayment and off-bill options for customers who use third party financing that does not require pro rata payment (i.e., disconnection),¹ and limits financing program participation to utility EE program measures.

- **Local Government Partnership Offerings:** Enhance the existing local government partnership offering to provide greater options for local governments, which is expected to result in higher levels of customer service and energy savings. SCE also proposes to partner with local governments that pursue Regional Energy Networks (RENs) to avoid potential duplication of services that, in turn, diminish the cost-effectiveness of partnerships and cause customer confusion. In addition, SCE plans to offer REN services to customers that don't participate in RENs, to ensure equal access to services for all local governments. Finally, SCE will ensure that services delivered both through and outside of RENs will be planned and implemented in concert, such that delivery of EE services maximizes coordination and increases effectiveness of EE campaigns throughout SCE's territory.
- **Marketing, Education, and Outreach Program:** Deliver EE marketing, education and outreach (ME&O) in concert with the statewide campaign, leveraging SCE's unique relationship with and knowledge of its customers, such that an effective message is sent from the right entity to targeted customers to educate customers and encourage them to participate in EE programs.
- **Energy Savings Values:** Modify the *ex ante* and custom review process to improve our collective ability to capture energy savings to meet California's energy and environmental objectives. The proposed modifications will enhance opportunities for participating customers to successfully achieve energy savings that create bill reductions and allow them to meet environmental aspirations. These process improvements are necessary because the existing *ex ante* review and custom processes are frustrating the fundamental purpose of the reviews. The level of uncertainty within the *ex ante* and custom review processes is burdensome to the point that EE service providers are finding it difficult to convince customers to participate, and customers are often dissuaded from participating.
- **Whole Home Upgrade Program:** Limit annual Whole Home Upgrade Program (WHUP) spending to enable SCE to nurture the program and ensure ratepayer funding is providing results in real time, and is successfully attracting participating customers. The existing WHUP is expensive, and has not delivered substantial results in 2010-2012. As a result, comprehensive residential upgrades are not taking place at the scale California needs to meet its energy savings goals. To address these shortcomings, SCE also proposes redesign of the program and its evaluation procedures.

¹ This proposal would treat third party charges from OBR loans the same as third party Electric Service Provider and Community Choice Aggregator charges under the Direct Access tariff. See SCE Rule 22, Section O.

B. The Preferred Program Plan Will More Cost-Effectively And Efficiently Meet Or Exceed The Commission's Goals

The SCE Preferred Program Plan seeks to more substantially and effectively integrate EE with other DSM offerings, through both internal and external coordination with key stakeholders across relevant proceedings. Approval of SCE's Preferred Program Plan will promote the State, Commission, and Strategic Plan's aggressive and essential goals of market transformation and cost-effective resource procurement for the deployment of EE products and services. The SCE Preferred Program Plan represents an investment of \$678 million that will generate 2.2 billion kilowatt hours of cumulative gross annualized energy savings, 380 megawatts of gross peak demand reduction and nearly \$1.68 billion in gross resource benefits to ratepayers. The Mandated Program Plan also included by SCE in this Application is compliant with all Commission directives contained in the Guidance Decision and will also meet the Commission's Goals, achieving the same level of savings and gross peak demand reduction, but at an increased ratepayer investment of \$786 million. As can be seen by comparing the proposed results, the SCE Preferred Program Plan outlined above will provide more cost-effective, cost-efficient, and streamlined EE programs which significantly further the Commission's stated EE goals.

C. Summary Of The DR IDSM Program Plan

In response to specific Commission guidance from both the EE and DR proceedings² SCE has identified in this Application specific incremental DR funding to continue and expand the efforts of integrated demand side management solutions for the 2013-2014 transition period. Since SCE's 2009-2011 EE application,³ SCE has requested and received funding to conduct integrated DSM pilots, programs, and regulatory reporting and compliance activities from both the EE and DR proceedings. These activities are in accordance with the California Long Term Energy Efficient Strategic Plan (Strategic Plan) and enable SCE to offer EE, DR, distributed generation, and advanced metering

² August 27, 2010 ALJ Ruling and D.12-05-015, issued on May 18, 2012, in R.09-11-014 (EE EM&V proceeding); D.12-04-045, issued on April 30, 2012, in A.11-03-001, *et al.* (IOU DR Application proceeding).

infrastructure as elements of integrated solutions that support energy and carbon reduction goals for SCE customers.

During 2010 and 2011, SCE received authorization to conduct a number of DR IDSM pilots and programs using DR incremental funding, in collaboration with the pilots and programs approved in the 2010-2012 EE programs portfolio. Working with the IDSM statewide task force and Energy Division, SCE increased its internal and statewide coordination efforts; increased the engagement of internal program integration stake holders; and facilitated significant progress towards the integrated vision of the Strategic Plan through its DR IDSM efforts. Through Commission funding approvals from the 2012-2014 DR decision,⁴ DR integration activities with the EE portfolio are continuing, with significant efforts in partnerships, workforce, education and training, audits, and local marketing bearing significant results towards integrated milestones and metrics. This ramp up of activities from the nascent IDSM efforts chartered in 2008 to the recognized integrated DSM successes in 2012 have identified additional opportunities for integrated customer programs, marketing, and technologies for the 2013-2014 transition period.

To support increased integrated DSM successes at the pilot and program level and to meet regulatory expectations identified in the Strategic Plan, SCE has developed a small but focused portfolio of programs, pilots, and innovative integrated efforts to build on the best practices and continue to address integrated DSM as an important strategic customer priority. The testimony in support of SCE's DR IDSM proposals is provided in Exhibit SCE-13, in compliance with Commission rulings, decisions, and guidance, and is in alignment with the Strategic Plan and represents the incremental efforts for the DR portfolio needed to effectively ensure that all customers have access and engagement with SCE's EE and DR programs and incentives in a coordinated and seamless manner.

D. Revenue Requirement And Cost Recovery

SCE is requesting a decrease in its EE funding levels in this Application. Pursuant to D.09-09-047, SCE is currently authorized to recover approximately \$398 million per year from customers associated with its EE programs during 2010, 2011, and 2012. For a two-year period, this equates to approximately \$796 million. Table II-2 shows the decrease in EE program funding costs for both the Preferred and Mandated Program Plans requested during the 2013-2014 period (two-years) from currently authorized funding amounts.

1/ Authorized in SCE's GRC (D.09-03-025)

As shown on Line No. 2 of Table II-2, SCE requests that the Commission adopt a total EE and DR IDSM program budget over the 2013 and 2014 two-year period of \$786 million in this proceeding.

SCE's currently authorized EE program budget over the three-year period of 2010, 2011, and 2012 is \$1.228 billion. On average, SCE is requesting to decrease its budget request on an annualized basis by \$16.3 million. As in the past, SCE is requesting to use funding that has been already collected from customers that has not be spent or is not committed to be spent on EE programs as another source of funding the 2013-2014 EE programs. As shown in the Table II-2 above, and as discussed in more detail in Exhibit SCE-6, SCE is currently estimating these unencumbered funds and On-Bill Financing Program repayments to be approximately \$106.2 million (*i.e.* the sum of amounts included on Line Nos. 5, 6, and 7 of Table II-2). SCE has estimated there is: 1) \$82.4 million of unencumbered funds that is or will be recorded as an over-collection in its Procurement Energy Efficiency Program Balancing Account, 2) approximately \$7.05 million of unencumbered funds recorded as an over-collection in its Demand Side Management Adjustment Mechanism (DSMAC), and 3) an estimated \$16.6 million of loaned amounts associated with the On-Bill Financing Program that will be repaid in 2013 and 2014. The \$7.05 million is an over-collection that is associated with pre-1997 DSM programs. By using this over-collection as a source of funding the 2013 and 2014 EE programs, the amount recorded in the DSMAC will be zero. If this proposal is adopted, SCE requests to eliminate this account from its Preliminary Statements. As shown on Line No. 14 of Table II-2, EE funding included in customers Public Purpose Programs Charge (PPPC) rate levels will decrease by \$58.3 million each year compared to the currently authorized annual EE program funding in PPPC rate levels. SCE will update these unencumbered amounts at the end of the year once the actual unencumbered amounts are known. In addition, SCE has included as a source of funding for the 2013-2014 EE program is an estimate of the On-Bill Financing loan repayments. Finally, pursuant to D.12-04-045,⁵ and as discussed Exhibit SCE-1

⁵ D.12-04-045, OP#74.

and Exhibit SCE-13, as shown on Line No. 15 of Table II-2, SCE is also requesting \$11.9 million annually to fund its DR IDSM activities during the 2013-2014 cycle in this Application.

E. Rate and Bill Impact Analysis

The EE and DR funding requested in this Application results in a net decrease in SCE’s revenue requirement of \$46.5 million. This results in a 0.38% reduction in bundled service customers’ average rates from the rates that are in effect today.

7. Statement Pursuant To Rule 3.2(a)(10)

Rule 3.2(a)(10) requires the applicant to state whether its request is limited to passing through to customers “only increased costs to the corporation for the services or commodities furnished by it.” This Application seeks only to pass through to SCE's customers the costs incurred by SCE in connection with Energy Efficiency programs and budgets for program years 2013-2014.

8. Service Of Notice – Rule 3.2(b), (c) and (d)

As required by Rule 3.2(b), a notice stating in general terms the proposed increase in rates will be mailed to the designated officials of the State of California, and the cities and counties affected by the rate changes proposed in this Application as listed in Appendix C, attached.

Pursuant to Rule 3.2(c), notice will be published in a newspaper of general circulation in each county in SCE's service territory within which the rate changes would be effective. A list of cities and counties affected by the increase proposed in this Application is attached as Appendix C.

Finally, pursuant to Rule 3.2(d), notice will be furnished to customers affected by the proposed increase by including such notice with the regular bills mailed to those customers.
